

## Destination trend report year 11

### Main Findings –

- Overall the percentage of leavers entering a positive destination for the past 5 years has remain consistently high at
  - 2012 – 98%
  - 2013 – 95%
  - 2014 - 98%
  - 2015 – 99%
  - 2016 – 95%
- The proportion of leavers continuing in education at Larkmead remained at a similar level over the past 5 years at around 35-45% of students stay on for 6<sup>th</sup> form at Larkmead.
- The number of students moving on to an apprenticeship in 2016 has risen to 9% from last year’s 6.47%. We had an increased amount of students making enquires about apprenticeships and held more sessions to support students.
- In 2016 we saw a rise in the amount of students who are NEET. Of those students this year only 4 are actively seeking an EET destination as the others have health issues which are preventing them from moving on. Unlike previous years those students who were flagged up at potential NEET’s in the summer were not offered any additional from the Early Intervention Hubs – due to staff changes. This may have had an impact on our NEET figures being higher.
